2. The **COUNT** columns contain number of occupied households for each district, and for household income categories within each district.
3. The **%** columns contain household percentages for each household income category within each district. TIP: Read these percentages across.
4. For some RDUs that had housing units in the 2010 Census PL94-171 data, there were household variables with no data in the ACS 2005-2009 5 year merged file. Either these housing units were not in existence at the time of the ACS data collection or none were picked up in the ACS sampling. There were also small differences between the ACS based estimates and the PL94-171 counts caused by rounding. Consequently, our estimates for these variables will not match exactly the housing unit numbers in the PL94-171 and there are differences in our table totals. The number of households is 22 lower than the PL94-171 occupied housing units.
